

CPC National

Module 2 Page 1

Understanding National Road Haulage Transport Operations. It is recommended that you spend 30 hours of study preparing for this module. In addition to taught hours, you will need to spend sufficient time studying independently.

The study plan prepared by your learning provider will show what you will need to learn, and how long you should spend on this work. You will need to understand and be able to apply the relevant rules, procedures and practices when operating a Road Transport business in the UK including;

- É Carrying goods, and working for other people
- É What the CMR Convention means and when it may affect an operator
- É The practical use of drivers hours rules as well as the Working Time Directive
- É How a business accounts for VAT
- É How tax on vehicles is managed and applied
- É How a business would use trade plates
- É A good knowledge of the major transport routes and cities, including tolls and congestion charge zones, and how these may affect the business
- É How to use insurances effectively
- É How the practical use of computers/IT devices can improve the effectiveness of a business
- É How working with other agencies can be productive in introducing work to the business
- É How to become licensed to carry out road transport operations
- É How the weight, dimension or load of a vehicle can affect its operation
